Summary

Machine Learning Engineer with 5 years of experience in Python, PyTorch, Apache Spark. I focus on models that are measurable and useful to the business.

Experience

Machine Learning Engineer, Corvid Technologies - Feb 2024 - Present

- Cleaned and joined messy data from five source systems.
- Prepared training data from 200M rows of transactions using Apache Spark.
- Deployed a model as an internal API and monitored drift every week.

Machine Learning Engineer, Silverline Apps - Nov 2021 - Jan 2024

- Set up experiment tracking and offline evaluation so results were reproducible.
- Presented findings to business stakeholders with clear charts and caveats.

Skills

Python, PyTorch, Apache Spark, MLflow, Kubernetes, Recommender Systems

Education

B.Tech in Information Technology, VIT Vellore, 2016 - 2020
