Summary

Data Engineer working with Python, Apache Spark, Apache Airflow. I focus on models that are measurable and useful to the business.

Experience

Data Engineer, Corvid Technologies - Nov 2023 - Present

- Prepared training data from 200M rows of transactions using Apache Airflow.
- Cleaned and joined messy data from five source systems.
- Set up experiment tracking and offline evaluation so results were reproducible.
- Presented findings to business stakeholders with clear charts and caveats.

Skills

Python, Apache Spark, Apache Airflow, dbt, SQL, AWS

Education

B.Sc Computer Science, Loyola College, Chennai, 2018 - 2022
