Summary

Backend engineer, 5 years in Java. Built payment reconciliation and lending services that process millions of events a day.

Experience

Senior Software Engineer, Brightforge Labs - Jun 2023 - Present

- Owns 6 payment reconciliation microservices in Java 17 and Spring Boot
- Kafka consumers handling ~2M ledger events/day with exactly-once semantics on top of PostgreSQL
- Cut month-end settlement time from 4 hours to 35 minutes by partitioning Postgres tables

Software Engineer, Tealwood Technologies - Jul 2021 - May 2023

- REST APIs for a loan origination system (Spring, Hibernate)
- Dockerised services and moved them to AWS ECS
- JUnit + Testcontainers test suites

Skills

Java, Spring Boot, Hibernate, Kafka, Postgres, Redis, Docker, AWS, Microservices, JUnit, Git

Education

B.E. Computer Science, Vidyagiri Institute of Engineering, 2021
