Summary

ML engineer who takes models from notebook to production.

Experience

ML Engineer, Kaveri AI Labs - Mar 2024 - Present

- PyTorch document-classification models served with FastAPI in Docker
- MLflow experiment tracking and model registry; drift monitoring
- SQL feature pipelines on the warehouse

Data Analyst, Brightforge Labs - Jul 2022 - Feb 2024

- scikit-learn churn models; Pandas and NumPy analysis
- Weekly SQL reporting for the growth team

Skills

Python, PyTorch, scikit-learn, Pandas, NumPy, MLflow, MLOps, Docker, FastAPI, SQL

Education

B.Tech Computer Science, Coromandel Institute of Technology, 2022
