Summary

Backend engineer who builds reliable Python services and data-heavy APIs.

Experience

Software Engineer, Nimbus Ledger - Jul 2022 - Present

- Built REST APIs in FastAPI and Django serving 2M requests a day.
- Moved background jobs to Celery with Redis, cutting p95 latency by 40%.
- Containerised services with Docker and deployed them on AWS (ECS, RDS).

Backend Intern, Tidepool Labs - Jan 2022 - Jun 2022

- Wrote PostgreSQL migrations and unit tests with pytest.

Skills

Python, Django, FastAPI, PostgreSQL, Redis, Celery, Docker, AWS, Git, CI/CD

Education

B.Tech in Computer Science, JNTU Hyderabad, 2018 - 2022, CGPA 8.4
